

# TOWN OF APPLE VALLEY

## TOWN COUNCIL STAFF REPORT

---

**To:** Honorable Mayor and Town Council                      **Date:** May 30, 2017

**From:** Brad Miller, Town Engineer                      **Item No:** 2  
Engineering Department

**Subject:** TOWNWIDE CLASS II BIKEWAY UPGRADE - PROJECT NO. 2016-03  
REJECT ALL BIDS

**T.M. Approval:** \_\_\_\_\_                      **Budgeted Item:**  Yes    No    N/A

---

### RECOMMENDED ACTION:

1. Reject all bids for the Townwide Class II Bikeway Upgrade - Project No. 2016-03.
2. Direct staff to reduce the scope of the project.
3. Authorize staff to solicit bids for the revised scope of work.

### SUMMARY:

Staff advertised the Townwide Class II Bikeway Upgrade -- Project No. 2016-03 on March 31, 2017 with an engineer's estimate of \$1,389,744.73 which would be funded in part with a \$451,000 federal grant to complete the signing and striping upgrades along the Class II bikeway, with the remaining portion coming from the annual \$1,000,000.00 paving budget. As a complimentary component, the project was expanded to included micro-surfacing the affected streets, as well as other arterial roadways within the Town of Apple Valley. Staff opened four sealed bids on May 4, 2017, and the results are as follows:

- |                                 |                |
|---------------------------------|----------------|
| 1. American Asphalt South, Inc. | \$2,047,612.68 |
| 2. Pavement Coatings Co, Inc.   | \$2,062,000.00 |
| 3. All American Asphalt         | \$2,417,531.46 |
| 4. Roy Allen Slurry Seal, Inc.  | \$2,867,379.17 |

### BACKGROUND:

The project includes the installation of marking, striping, and new signs to meet current bike lane standards in accordance with the current Manual on Uniform Traffic Control Devices (MUTCD) on Class II bike lanes along several miles of paved main arterials within the Town of Apple Valley. Additionally, the project includes widening the pavement at

four (4) intersections along Apple Valley Road, at Mondamon, Mandan, Seneca, and Shoshonee Roads to accommodate the new bike lane standards through those intersections. Lastly, the affected areas, as well as other areas identified in the Town's Pavement Management System, will be micro-surfaced prior to placement of the new striping as part of the Town's 2016-2017, 2017-2018 paving priorities, which will extend the life of the new striping.

Staff recommends separating the federally funded component, the Town wide bike path upgrade, (marking, striping, and new signs) from the micro-surfacing of the streets component, and bid each component separately. Staff recommends completing the Micro-surface Project prior to installing the new bike path markings and striping.

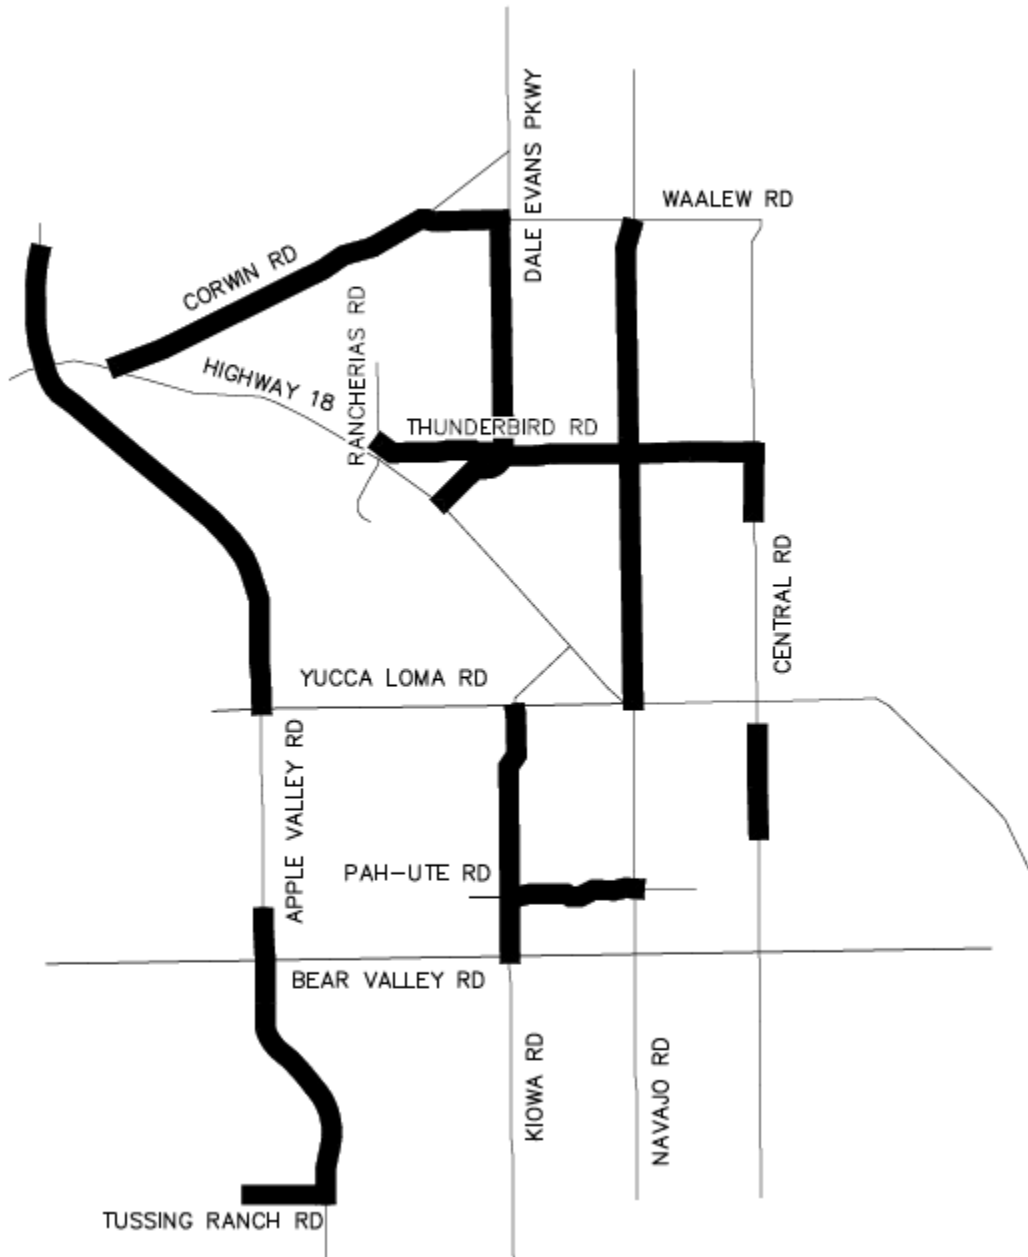

**FISCAL IMPACT:**

Because the project bids exceed the current available funding sources, it is recommended to reject all bids and split the project into two (2) separate components. A budget amendment will be submitted transferring the Town's Fiscal Year 2016-2017 paving priorities budget to combine with the Fiscal Year 2017-2018 budget which will provide sufficient funding for the micro-surfacing portion of the project. The Town Wide Class II Bikeway portion will be funded with a \$451,000 federal grant. There is no immediate fiscal impact with approval of the revised scope bid documents and authorization to advertise for bids.
