## RESOLUTION No. 2018-31

### A RESOLUTION OF THE TOWN COUNCIL OF THE TOWN OF APPLE VALLEY, CALIFORNIA, AMENDING AND ESTABLISHING SPECIFIED FEES FOR TOWN SERVICES

**WHEREAS**, prior to 2005, the Town Council of the Town of Apple Valley had previously adopted schedules for various services, materials and mitigations provided by the Town specifying that the cost of rendering such services, materials or mitigations should be borne by the beneficiaries of same; and

**WHEREAS**, due to the effects of inflation and other factors, the revenues and said fees were no longer sufficient to defray the full cost of furnishing said services; and

**WHEREAS**, the Town of Apple Valley previously conducted an extensive and exhaustive analysis of its services, the costs reasonably borne of providing those services, the beneficiaries of those services, and the revenues produced by those paying fees and charges for special services, contained in a document prepared by Town Staff and Revenue and Cost Specialists (“RCS”) entitled “Cost of Service Study for the Town of Apple Valley (Fiscal Year 2004-2005)”, published March 31, 2005; and

**WHEREAS**, following a duly noticed public hearing, and based upon said Cost of Services Study, the Town Council on May 10, 2005, adopted fees and charges, including those in Resolution No. 2005-21, which Resolution provided that referenced fees therein shall annually be automatically adjusted by a percentage amount equal to or less than the change in the cost of living index; Resolution No. 2006-44 clarified the intent of the Town to use the Los Angeles-Riverside-Orange County Consumer Price Index for Urban Wage Earners and Clerical Workers, which has been historically used by the Town, and will continue to be used in the current resolution to assist in determining fees and cost of living adjustments; and

**WHEREAS**, such RCS Cost of Service Study for the Town of Apple Valley for Fiscal Year 2004-2005 has been updated annually since 2005 to include various price increases in construction costs, including increases in the prices of commodities as noted in the Los Angeles-Riverside-Orange County Consumer Price Index for Urban Wage Earners and Clerical Workers (March to March), and pursuant to a staff-developed construction price increase analysis fee study on file with the Town Clerk dated May 1, 2008; and

**WHEREAS**, on May 10, 2005, the Town Council of the Town of Apple Valley adopted Ordinance 294 which modified and amended certain wastewater fees and charges as provided by Exhibit B of said ordinance; and

**WHEREAS**, Exhibit B of Ordinance 294 provided for automatic adjustment by the Engineering News Record (ENR), construction cost index, 20 cities average (March to March); and

**WHEREAS**, the Town wishes to comply both with the letter and the spirit of Article XIII B of the California Constitution and limit the growth of taxes; and

**WHEREAS**, the Town desires to continue with the established policy of recovering the full costs reasonably borne of providing special services of a voluntary and limited nature, such that general taxes are not diverted from general services of a broad nature and thereby utilized to subsidize unfairly and inequitably such special services; and

**WHEREAS**, based upon the State Guidelines to Implement the California Environmental Quality Act (CEQA), the proposed changes to the adopted Apple Valley Fee Schedule is not defined as a project and is, therefore, EXEMPT from further environmental review; and

**WHEREAS**, the Town Council has duly considered the question of whether to automatically increase said fees on an annual basis; and

**WHEREAS**, implementing the cost of living increase by amending the Apple Valley Fee Schedule is necessary to implement the intent of Resolution No. 2005-21, and is consistent with applicable enactments of the Town of Apple Valley and will promote and continue to promote the health, safety and general welfare of the citizens of the Town of Apple Valley; and

**WHEREAS**, it is the intention of the Town Council to continue to implement and update its developed and revised schedule of fees and charges based on the Town's budgeted and projected costs reasonably borne for the ensuing fiscal year; and

**WHEREAS**, the Town in 2005 made available to the public data indicating the amount of cost, or estimated cost, required to provide the services for which the fees and service charges are levied and the revenue sources anticipated to provide the services, including the above-referenced Cost of Service Study; has made available for the public the said current construction price increase analysis and fee study; and

**WHEREAS**, the modified fees and charges proposed are consistent with the purpose and intent of the Town's General Plan; and

**WHEREAS**, all requirements for adoption of this Resolution have been complied with;

**NOW, THEREFORE, BE IT RESOLVED** that, based upon the said fee study considered by the Town Council, and for the reasons discussed by the Council, the Town Council of the Town of Apple Valley, California, finds, determines and orders as follows:

**Section 1.** That the fees, as increased, in the Proposed Municipal Fee Schedule

hereby implement the automatic cost of living increase provisions intended by the Town Council in 2005, are consistent with applicable Town regulations, and will promote the health, safety and general welfare of the citizens of the Town of Apple Valley.

**Section 2.** That, based upon the State Guidelines to Implement the California Environmental Quality Act (CEQA), the proposed changes to the adopted Municipal Fee Schedule are not defined as a project and are, therefore, EXEMPT from further environmental review.

**Section 3.** The amended schedule of fees for various services, materials and mitigations provided by the Town of Apple Valley attached as the "Municipal Fee Schedule including Schedules A through Schedule L" inclusive, hereto, which amend and add to certain fees and charges contained in the Schedule of Fees adopted by Council Resolution Nos. 2002-15, 2005-21, 2008-30, 2014-27, 2015-15, 2016-17 and 2017-21 as subsequently amended, and pursuant to the provisions contained therein, are hereby approved and adopted.

**Section 4.** Prior enactments of the Town Council establishing fees and charges for services, materials and mitigations, identified within Schedule A through Schedule L inclusive, attached hereto, are hereby amended to the extent that such prior enactments duplicate or are inconsistent with fees and charges established hereby; except as so amended, fees and charges for services, materials or mitigations in effect prior to adoption of this resolution and not amended hereby shall remain in effect.

**Section 5.** The recitals and provisions of Ordinance No. 294, considered during the public hearing therefore on May 10, 2005 as they pertain to Quimby and Park Development Impact Fees are hereby referenced and incorporated in connection with adoption of this Resolution.

**Section 6.** Severability. If any provision of this Resolution or the application thereof to any person or circumstances held invalid, such invalidity shall not affect other provisions or applications and, to this end, the provisions of this Resolution are declared to be severable. In the event any fee increase herein is determined by the final judgment of a court of competent jurisdiction to be invalid, then the fee in effect as to that item prior to the adoption of the said invalidated fee by this Resolution shall be construed hereby to remain in effect.

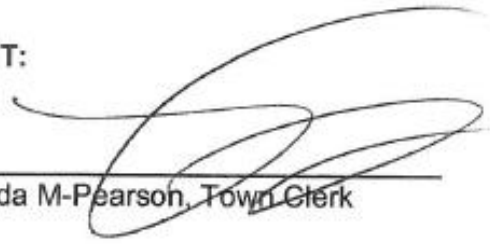

**Section 7.** Except where the minimum effective date is otherwise prescribed by law, unless otherwise prescribed in Exhibit A attached hereto, the fees approved, increased and established herein shall become effective on July 01, 2018 unless otherwise noted.

**APPROVED** and **ADOPTED** by the Town Council of the Town of Apple Valley this 26th day of June, 2018.

## **PREFACE**

### **Building Inspection and Plan Review**

All fees fixed by this section are for each identified process, and additional fees shall be imposed for each additional process required. Where fees are indicated on a per unit of measurement basis, the fee is for each identified unit or portion thereof within the indicated ranges of such units (e.g. such units of measurement include total valuation, square footage, cubic yards, years, BTU's, etc.).

Refund/Collection Policy - Where additional fees must be charged and collected for completed staff work; or where a refund of excess deposited fund is due, and where such charge or refund is ten dollars (\$10.00) or less; a charge or refund need not be made. This policy is in compliance with California Government Code Sections 29373.1 and 29375.1 and any amendments thereto.

Cumulative Fees - Where fees are indicated as cumulative, they are fixed for each indicated range individually and separately from all other ranges. The total of all preceding ranges yields the cumulative total.

Any fee which is less than the minimum permit fee charge, the difference is charged and shown under "issuance" fee.

**PERMIT AND PLAN REVIEW FEES FOR R AND U OCCUPANCIES  
(RESIDENTIAL)**

The building permit and plan review fees for 1, 2 and 3 story buildings housing only R and U occupancies that are not hotels or motels shall be computed from “Table A” and “Table B” in this section. The permit fee from “Table B” includes all inspection fees for all phases of the construction, including fees for sewer connection or disposal permits, residential driveway approach permits, temporary construction power pole permits, and those for a temporary construction shed that is removed prior to final inspection.

The adjusted floor area in “Table B” shall be computed from “Table A” by multiplying the actual area of each use as determined from exterior dimensions, by the appropriate factor from “Table A”.

TABLE A	
Living areas, including basements and cellars	1.00
Garage & storage buildings	0.50
Porch, patio, carport, storage shed	0.20
Porch or patio enclosure	0.50
Raised floor decking	0.20
Cover over raised floor decking	0.20
Slab or foundation only (when requested for record)	0.10

Retaining walls and masonry fences	0.20
Air supported and film covered agricultural buildings	0.10
Milking barns	0.80

For remodeling, repair, alteration and rehabilitation in existing buildings, the factor is to be determined by dividing the valuation of the new work by the valuation of the existing building. The factor and square footage are to be determined by the prealteration inspection.

\*When converting from one use to another use, the factor shall be the difference between the factor for the new use and the factor for the existing use (e.g., when converting a garage to living area, the factor will be 1.00 less .50 = .50).
